

L

Grand L40 Series

FEATURES

IntelliPanel™

Menu Button

A simple touch of the Menu's down button lets you make changes to the Standard Indicator's digital information screen.

Column-type Combination Switch

This new combination switch allows you to operate the headlights and indicators with car-like ease.

HST Response Control Dial and Mode Selection Button (only with HST Plus)

Standard Indicators

Kubota's standard indicators display the Grand L40's current working condition, hour meter reading, traveling speed, PTO speed and operating status—all in universally recognizable and easy-to-read symbols. With one touch of the Standard Indicator's Menu button, you can change the panel's display to better manage tractor productivity, efficiency and safety.

Warning Indicators

To keep the tractor running smoothly, the IntelliPanel's engine, fuel, temperature and oil warning indicators will activate and change accordingly. After which, you'll get convenient follow-up messages until service is completed.

Scheduled Service Alert

The Grand L40 uses an LCD readout to notify you of basic maintenance needs at scheduled intervals.

Deluxe High-Back Seat

With its newly redesigned deluxe reclining seat, the Grand L40 offers the ultimate in working comfort. It features standard soft arm rests, wider seating, firm shock absorbing springs, a retractable seat belt and a weight-sensitive ergonomic design that adjusts to your unique posture. What's more, you can keep valuables and the operator's manual close at hand with our convenient seatback pocket. So sit back and enjoy the ride.

Grand L40 Series

FEATURES

Rounded Fender/Wide Step

The Grand L40's fender and wide step deck feature provide a larger, more comfortable step-through area.

Power Steering

Responsive hydrostatic power steering makes every job easier. Straight-a-ways and tight turns alike are taken smoothly, while steering remains easy and worry-free when a heavy load is applied or the front loader is used.

Tilt Steering Wheel

The Grand L40's tilt steering wheel delivers an extra-wide tilt angle for maximum comfort. You simply need to step on the adjustment pedal, tilt the steering wheel to select your ideal position, and lock for the most comfortable operating position. Step on the pedal again to unlock the wheel for easy tractor mounting and dismounting.

Loader Control Lever Location

Because the Grand L40's loader valve and control lever are integrated into the tractor as standard equipment, the control lever is positioned close to the operator for improved operability, easier access and less fatigue.

Open-Floor Seat System

The Grand L40 features a removable seat panel that's positioned over the transmission to allow easier access and service of hydraulic valves and sensor-related components. Now, hydraulics maintenance has been simplified. It's just another way Kubota works to keep you in the driver's seat.

Grand L40 Series

FEATURES

Metal Hood/Fender

For expanded durability and lasting quality, Kubota uses sheet metal for its hoods and fenders.
