L4400

FEATURES

Powerful and Clean-running 45.3HP Kubota Engine

World renowned for its reliability and power, the Kubota E-TVCS diesel engine generates 36.0 PTO horsepower to let you tackle any job. The rugged power plant delivers dynamic output and high torque, reduced noise and low vibration. It also produces clean emissions to meet the EPA's Interim Tier 4 '08 regulations. Plus, it includes the advanced Operator Presence Control (OPC), engine key-stop, and much more.

HYDROSTATIC TRANSMISSION (HST MODEL)

Feather-Step HST* (Hydraulic servo mechanism)

Kubota's 44.5cc Feather-Step HST features a hydraulic servo system that increases pedal responsiveness, providing easy pedal-shifting operation for smoother performance and improved control, regardless of load size. Now, forward and reverse directional changes are simple. The HST also reduces shock, vibration, noise and fatigue to improve tractor performance and operator comfort. Plus, it features a hand-operated, step-less cruise control, which keeps your working speed constant.

* L4400HST model only

Cruise Control Lever

The cruise control lever is conveniently located on the left side of the operator's seat for easier setting. Simpler than button and pedal combination systems, our lever lets you select and maintain the perfect travel speed for reduced operator fatigue.

GEAR-DRIVE TRANSMISSION (GEAR MODEL)

Shuttle Transmission For Higher Productivity

For easier front-loader operation, get a grip on the L4400's range shift—it has a forward/reverse mechanical shuttle shift in the low and reverse ranges. Plus, the transmission offers 8 forward and 4 reverse speeds (8F/4R), enabling you to select the perfect speed for higher productivity.

Full-open Hood and Slide-out Grill

Whether simple maintenance or a more involved repair, a one-piece, full-opening hood exposes most engine components, making it easier to do either. Removing the front grill is fast, too. Simply slide it out.

Large Fuel Tank

You'll spend more time working and less time refueling with our large-capacity 11.1 gallon fuel tank.

L4400

FEATURES

Spacious Operator's Platform

The L4400 features widely spaced rear fenders and a full-flat deck design, providing ample space for the driver and maximizing comfort. Its hanging-type pedals also increase space while offering effortless operation. And the convenient cup holder always keeps a refreshing drink within easy reach to help keep your thirst quenched.

Hydrostatic Power Steering

Not only responsive, but our fatigue-reducing hydrostatic power steering remains light and smooth even when working with heavy loads.

Long Wheelbase

The L4400 maximizes both power and stability, thanks to its long, 72.6-inch wheelbase.

Choice Of Tires

Tires designed especially for specific jobs enable the L2800, L3400 and L4400 to perform even better. Select from AG, Industrial, and Turf.
