FEATURES

Dual-Element Air Cleaner

Kubota ZD300 Series series mowers come equipped with a dual-element air cleaner which features a vacuum sensor to tell you when to service the air cleaner.

Large Fuel Tank

The fuel capacity for the ZD300 series is 12.9 gallons and includes two fuel tanks. This allows the operator to work longer and more efficiently without stopping to refuel. This feature is especially handy for those big jobs.

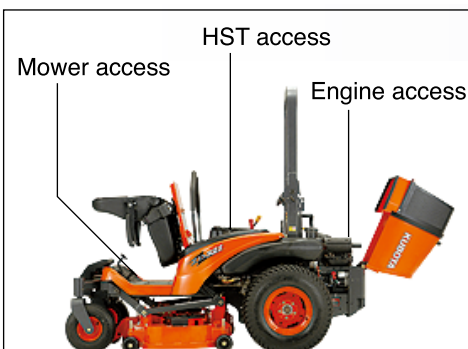

Parking Brake (Hands-free)

With ZD300 Series Mowers, you don't need separate levers or special switches to set the parking brake; you only need to depress the parking pedal and set the parking lock. Both are conveniently placed directly in front of you on the angled footboard for easy access.

Large-Diameter Rear Tires

ZD300 Series Mowers feature large-diameter, sturdy rear tires for improved stability, durability and handling. The ZD331, ZD326 and the ZD323 come standard with big 26x12.0-12 tires, while the ZD321 with 54" mower deck is equipped with 26x10.5-12 tires.

Easy Maintenance

Maintenance has never been so easy. For interior maintenance, the sturdy seat panel is simply lifted up for clear access and an unobstructed view. By opening the hood, it's easy to perform routine maintenance, like adding oil, in mere seconds. Plus, there's a maintenance hatch on the full-flat platform, with a built-in storage pocket, for easy access to the upper mower, gearbox case and universal joint parts.

FEATURES

Maintenance Lift

For routine maintenance underneath the mower, Kubota's unique two-pin, tilt-up, lift feature allows the front of the ZD300 Series to be easily raised without having to remove the mid-mount mower. The system includes locks for the front tires to ensure safety. It's like having a built-in jack right there when you need it.

Radiator Screen

Kubota has integrated the radiator screen into the hood for better sealing performance and less likelihood of grass clippings finding their way inside the screen.

Engine Coolant Alert

ZD300 Series Mowers emit a warning alert if engine coolant temperatures run too high. It's another practical feature that helps keep this commercial mower running smoothly.

Air Cleaner Indicator

The ZD300 Series features an air cleaner indicator that indicates when it's time to change or clean the filter, and help maintain maximum airflow capacity.

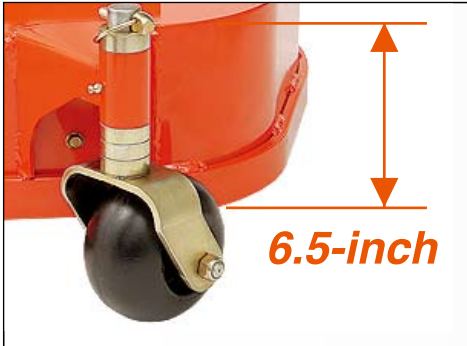

Tie Down

This strong and durable tie down is ideal for securing and loading the ZD300 Series onto a flatbed truck, making transportation a breeze.

FEATURES

Deep Mower Deck

Kubota's extra-deep, 6.5-inch*, fabricated mower deck design allows for faster cutting—even in tall, thick, and wet grass. The extra-wide discharge chute dispenses clippings more evenly across the ground.

*6 inches on 54" deck.

Swivel Anti-Sclap Rollers

To prevent unsightly turf damage, we've equipped the 72" and 60" mower decks with independently functioning anti-sclap rollers that rotate a full 360 degrees.

Mower Lift Link

The ZD300 Series mowers feature strong lift link components, including a sturdy lift shaft, a thick lift arm, and a wide shaft diameter.

Anti-Overflow System

The edges of the mower deck greatly reduce grass blow-back and help keep lawns looking nice and clean, particularly in dry conditions.

Baffle Design

The mower deck's advanced baffle design improves airflow to better discharge grass clippings, optimizing cutting performance for every job.

Flexible Discharge Chute

The Z-Series mower deck features a discharge chute crafted from a flexible-but-sturdy material, which helps reduce damage to landscaping.

Kubota

FEATURES

Hands-Free Hydraulic Deck Lift

Kubota's advanced hydraulic deck lift pedal system allows the operator to easily raise and lower the deck with foot pedals, so easy access and quick response is never a problem.
