## ZG327

# FEATURES

### Indicator Panel

The ergonomically angled control panel enables easy viewing and keeps most major controls and indicators within close reach. It includes fuel and oil gauges, cutting height adjustment dial, locking PTO lever and more.

### Hands-free Parking Brake / Deck Lift Pedals

With the ZG327, you only need to depress a single pedal to park the mower. And, thanks to the 2-pedal hydraulic deck lift system, you can easily raise and lower the deck to keep mowing in spite of obstacles. All three pedals are placed directly in front of you on the angled footboard for easy access.

### Semi-pneumatic (Flat-free) Front Tires

An industry first for this size, the 15", flat-free caster tires were created to absorb impacts with the rigidity of their structural thickness. This feature greatly reduces the worry of downtime from flat tires, so you can spend more time working.

### Pro Commercial Mower Deck

The ZG327 features a heavy-duty, 60" Pro Commercial mower deck for superior cutting performance. With a deck depth of 6.5 inches—the deepest in the industry—it features a unique baffling system that improves airflow to discharge grass clippings, and an anti-overflow system, which reduces grass spillage. The deck utilizes a flexible-but-sturdy discharge cover, which helps prevent damage to shrubs and landscaping. It's the ideal mower deck—for any mowing job.

### Optional Mulching System

The ZG327's deep mower deck is perfect for mulching, even on thick grass. A Kubota-designed flow plate optimizes airflow and facilitates repeated cutting, and the specially designed mulching blades provide an extra-fine cut to leave a beautiful finish.

# FEATURES

### High-back Deluxe Suspension Seat

Maximize your comfort with the ZG327's cushioned, reclining, high-back deluxe suspension seat. The ergonomic, extra-wide adjustable seat features 3-position lumbar support, adjustable armrests, seatbelt and much more, to reduce fatigue and make your job easy.

### Operator Platform

This spacious operator platform is designed to make you comfortable while working. It has wide speed control levers and an obstacle-free floorboard to allow greater legroom, and features a wide step to simplify mounting/dismounting.

### Reliable Hydrostatic Transmission

The large-capacity HST brings performance to a new level. Regulated by an efficient gear hydraulic charge pump, the HST delivers smooth control, quiet operation and a quick response. Plus, the durable copper metal cylinder block ensures transmission durability and performance.

### Integrated Radiator Screen

A large steel-mesh screen is integrated into the hood. This boosts airflow to keep the engine running cool and efficiently, and protects vital parts.

### Easy Maintenance

With the ZG327, maintenance is hassle-free. The seat panel lifts up for quick access to the HST. Routine servicing (adding oil, etc.) is easy—just open the hood. The maintenance hatch on the operator platform makes upper mower access a snap. For a complete view, all three can be opened at the same time. A 5" dual-element air cleaner with vacuum sensor informs you when service is required. Kubota's optional tilt-up lift feature is also available for routine maintenance underneath the mower.

# FEATURES

### Underside Maintenance

With the simple stroke of a lever, a sub-chassis hatch opens to give you easy access to the oil filter and removes stray clippings.

### Mower Access

The ZG327 features a special maintenance hatch, with a built-in storage pocket, on the full-flat operator platform. It allows easy access to the upper mower, mower belt, gearbox case, and universal joint parts.

### Durable Kubota Gasoline Engine

The new, V-Twin Kubota gasoline engine delivers durability and productivity like nothing else. Available in 22HP or 27HP, this reliable, air-cooled engine offers outstanding performance and quiet operation. Specifically designed for mowing, it features Kubota's clean-flow structure, which virtually eliminates the likelihood of grass clippings clogging the wide cooling air passage. And Kubota makes maintenance simple—the engine cover can be removed so you can perform routine maintenance without taking the engine out of the machine. Plus, a unique carburetor drain cock allows you to drain out residual gasoline, to keep fuel lines clean and making the transportation or long-term storage of the mower safer.

### Panel

With the user-friendly instrument panel, Kubota keeps essential controls and indicators close for easy access and viewing. They're all here—warning indicator, fuel gauge and more.
